Personal Biography

An artist who has flourished in the comfort of Jazz, Top 40s, R&B, and Pop; pianist Brian O'Neal oozes with the versatility of a uniquely upbeat, smooth style that compliments today's "New" Jazz." He brings an exciting and uninhibited sound to the world of jazz, which makes it creatively challenging for many to classify his music. O'Neal attracts an eager following and commands the respect of his listeners domestically & abroad. "I don't listen to the radio often out of respect for my craft. I don't want to taint my vision of music with that of which you've heard every day. By shutting myself out of the listening audience, I'm not apt to emulate any sound you've ever heard before." O'Neal says to WFSK 88.1FM's DJ, Sharon Kay.

O'Neal was born July 5, 1965, in Detroit, and first discovered his passion for music at the age of six, when he took his first drum lesson. Although Brian (*known to his friends as "Bean"*) learned to play many instruments, including the saxophone, bass, and trombone; he aspired to be a professional drummer, that was until his junior year in high school, after being asked by his band teacher to fill in to play the piano for the band's performance. Brian instantly became enthralled with the idea of mastering such a magnificent and gentle instrument. At that time his grandmother "Daisy O'Neal" began to notice how comfortable and excited he was about playing, and purchased his first piano. O'Neal's passion for the piano increased as he experimented with various melodies and chords; causing his skill to mature rapidly. As a self taught Pianist, he later received a full Piano Music scholarship to Alcorn State University.

Brian's talents then soared into the world of jingles, working with companies such as the McDonald's Corporation. His love for movies and children inspired him to compose film scores for youthful audiences around the country. As he explored his musical gifts, he began touring with a several Rock and

Top 40 Bands, Atlanta based jazz band "Take Notes" and Contemporary Jazz/R&B artist Kem, where he serves as assistant music director. O'Neal's love for music led him to share his talent by mentor other aspiring artist such as Universal/Motown recording artist Kem, who later became a national Jazz/R&B sensation.

O'Neal has shared the stage with many great musicians over the past two decades; including Marion Meadows, Will Downing, Morris Day and the Time, India Arie, Ledisi, Fantasia, Angela Bofill, Stevie Wonder, Frankie Beverly and Maze, Alex Bugnon, George Duke, Pieces of a Dream, Chaka Kahn, Najee, Kindred Family Soul, and Jeff Lorber. He has composed and produced music for several artist and poets abroad; including UNV, Kathy Avalon, Kem, Eddie Oliver and a host of other up and coming talents alike.

Several of O'Neal's accolades include being nominated for Detroit Music Awards "Most Outstanding Composition", his song *Mesmerized* won best song on OurStage, four songs were selected for the National Weather Channel, has hailed the #1 spot on MySpace charts for over a year and awarded the Wayman Tisdale Humanitarian Award at the American Smooth Jazz Awards in 2010.

O'Neal's lifetime musical influences has been Herbie Hancock, Pat Matheny, Prince and Stevie Wonder. These legendary artist helped shape his desire to pursue a career as a professional musician. As a writer, producer, composer and performer; O'Neal has a gentle and natural approach to creating musical safe havens for his listeners. Brian O'Neal is truly a talented and humble musician. He captures your inner desires with melodic rhythms and teases your emotions with the vibrations of each instrument.

Gods Of Music

"...I have to say, there has to be a lot of interest and captivation in the music, along with decent quality if I am going to step out of my bounds to review it. My hat is off to Brian O'Neal, and I'm sure yours will be too after hearing what he has to offer."

Arlene "Angel" James – DJ WFLM FM 104.7 (Florida)

"...Brian's music is comparable to Bob James, Joe Sample and the rest. It's hard to pick just one song to feature on a continuous basis."
